THE SKYRIDE RAMP
Shooting the ball up the Skyride ramp enables a Rocket Light. You also use the Skyride ramp to get to the Puke Roll-Overs.
THE DROP ZONE
The ball will drop from here after you have played the Arcade one-arm-bandit, shot the ball through the Tunnel or have managed to find the Hidden Hallway...

THE LEFT PASSAGE
Shoot the ball through the Left Passage to light up a “MAD” letter.

THE ROCKET LIGHTS
Light up all 3 Rocket Lights to enable a Multi-Bonus on the Right Passage. You can enable Multi-Bonuses of x2, x4, x6 and x8.
Once you have enabled all the Multi-Bonuses, lighting up all 3 Rocket Lights will award an Extra Ball. If you are lucky enough to light the Rocket Lights once again, you will be awarded with 1 million points. When you have collected both the Extra Ball and the 1 million points bonuses they reset, so that lighting all 3 Rocket Lights again will award an Extra Ball, and so on.

THE TUNNEL
Shoot the ball through the Tunnel repeatedly to collect the Tunnel bonus. The first time you shoot the Tunnel you will collect 1 million points and enable the “3M” light for 10 seconds. Shoot the Tunnel while the “3M” light is flashing to collect 3 million points and enable the “5M” light for 10 seconds. Shoot the Tunnel while the “5M” light is flashing to collect the top Tunnel bonus of 5 million points.

THE POSITION LIGHTS
When a pair of Position lights are flashing, you can improve your race position (and get closer to pole position) by setting the lights on. To set a light, shoot the ball up the Left and then the Right ramp (or vice-versa) in quick succession. You will then perform an Overtake, collect 1 million points and slide into a new race position.

THE CAR
Each time you advance 2 speed steps on the Speedometer, a bolt-on will be enabled for your car. Collect the bolt-on by shooting the ramp or passage where a 1-5 light is flashing. Once you have collected a bolt-on, it will flash on the car.

THE MILES FEATURE
For each multiple of 10 miles you collect, you will enable a bonus feature:
1. Collecting odd multiples of 10 miles (i.e. 30, 50, 70...) enables the Jump feature.
2. Collecting even multiples of 10 miles (i.e. 40, 60, 80...) enables the Offroad feature.
3. Collecting 10 miles enables the Offroad feature.
4. Collecting 20 miles enables the Extra Ball on the Top-right passage.

THE JUMP FEATURE
Once Jump is enabled, shooting the Jump ramp will award you with 10 million points.
THE LOOP MIL RAMP
Shooting the ball around the Loop Mil ramp in quick succession will award you with 1 million points. You also use this ramp to reach the Left ball trap and collect any Prizes that you may have enabled, or to spin the Small Wheel when it is enabled.

THE DOLLAR DROP-TARGETS
If you hit and set both Dollar Drop-targets you will enable the Small Wheel in the Left ball trap (the “SPIN WHEEL” light will flash to indicate that the Wheel is primed.)

THE RIGHT PASSAGE
You will need to shoot the ball through the Right passage when trying to enable some of the Prizes.

THE SKILL RAMP

18, 24, 30 ... counts enable the Money Mania feature.

THE LEFT PASSAGE
If you shoot the ball through the Left passage when the Extra Ball light is flashing you are awarded, of course, an extra ball (the “MO’MONEY” light will be enabled once you have collected an extra ball).
THE CLOCKWISE RAMP
Shooting the ball up the Clockwise ramp when the “50M” light is lit will award the Super Jackpot (50 million points). Shooting the ball here will also enable the “CASH X5” feature in the Lock.

THE RIGHT RAMP
If you shoot the ball up the Right ramp when the “JACKPOT” light is lit you will be awarded the Jackpot bonus.

THE LOCK
Shooting the ball into the Lock awards the current Cashpot bonus. You can collect 5 times the Cashpot bonus by shooting the Lock when the “CASH X5” light is flashing. Lastly, once you have managed to collect all 6 prizes, shoot the Lock to enable the Billion bonus on the Left Ball Trap.

THE SMALL WHEEL FEATURE
Once you have enabled the Small Wheel, you can spin it by shooting the Loop Mil ramp so that the ball falls down into the Left ball trap. The ball trap will hold the ball while the wheel spins, slows down and then stops to award you one of 8 score bonuses:
25,000 points, 50,000 points, 100,000 points, 250,000 points, 500,000 points, 1,000,000 points, 2,500,000 points or 5,000,000 points.
Once you have been awarded the bonus, the ball will be shot back into play.

THE LEFT BALL TRAP
The Left ball trap is opened by:
1. Enabling the TV, the Car and the Trip Prizes.
2. Enabling the Boat, the Plane and the House Prizes.
3. Hitting both Dollar targets.
Apart from collecting the Prizes, you use the Left ball trap to spin the Small Wheel and collect the Billion bonus when they are enabled.

**THE PRIZES**

There are 6 prizes to be collected. The Prizes are split up into 2 groups of 3:

Group 1 - The TV, the Car and the Trip.
Group 2 - The Boat, the Plane and the House.

You have to shoot the ball through different combinations of ramps and passages to enable each Prize, as follows:

1. Shoot the Right ramp and then the Skill ramp to enable the TV.
2. Shoot the Right ramp and then the Clockwise ramp to enable the Car.
3. Shoot the Left passage and then Skill ramp to enable the Trip.
4. Shoot the Right ramp, the Skill ramp and then the Right passage to enable the Boat.
5. Shoot the Right ramp, the Clockwise ramp and then the Left passage to enable the Plane.
6. Shoot the Left passage, the Skill ramp and then the Right passage to enable the House.

Once you have enabled a Prize, its light (somewhere around the edge of the Small...
Wheel) will start flashing. Please note that you have to enable all 3 Prizes in a group before you can collect them from the Left ball trap. Collecting 3 Prizes will also enable the Jackpot for a 25 second period. If you fail to enable all the Prizes in any group (i.e. if you lose the ball) you will have to start again from scratch on your next ball.

**THE MULTI-BONUSES**
If you shoot the Left passage and then the Clockwise ramp you will collect the next Multi-bonus in the sequence. You can collect Multi-bonuses of x2, x3, x4, x6, x8 and x10.

**THE SUPER-JACKPOT FEATURE**
Collecting the Jackpot enables the Super-Jackpot (50 million points) on the Clockwise ramp for a 5 second period.

**THE MILLION PLUS FEATURE**

Each further time you complete this ramp combination you increase the bonus by 1 million and then collect it (i.e. the 2nd time you do it you score 2 million points, the 3rd time 3 million points, etc.)
GAME PLAY

THE KEY ROLL-OVERS
Spelling “KEY” by lighting up all 3 letters will enable the next Tower bonus and open the Tower. Whenever you shoot the ball into the table from the ball chute, one of the “KEY” letters will be lit. If the ball crosses this rapidly flashing letter, you will collect a Skill Shot bonus. Skill Shot bonuses start at 1 million points and increase by 1 million every time you collect one. The “KEY” letters are cyclable by using the flipper keys.

THE TOWER RAMP
Shoot the ball up the Tower ramp to collect the current Tower bonus, which will be highlighted underneath the Tower. There are 7 Tower bonuses to collect - an Extra Ball, the Jackpot, the Super-Jackpot, 1 million points, 5 million points, the Hold Bonus and the Double Bonus.

THE RIP LIGHTS
If you spell “RIP” by lighting up all 3 letters, you will enable the Kick-back feature in the Vault.
THE SCREAMS RAMP
Shooting the ball up the Screams ramp will add 1 Scream to the Screams counter. If you shoot the ramp when the “2X SCREAM” light is flashing you will collect 2 Screams. You can also collect bonus points (5 million, 10 million or 20 million points) from here during Multi-Demon mode.
Shooting the Screams ramp a certain number of times will also enable other bonuses:
10 shots enable an Extra Ball on the Tower ramp.
20, 30, 40 ... shots enable 5 million points on the Tower ramp.

THE RIGHT PASSAGE
Shoot the ball through this passage to access the “KEY” Roll overs and the Tower ramp when it is open.
If you shoot the passage when the “PLUS” light is flashing you will collect 1 million points and increase the bonus by 1 million, so that the next time you shoot the ball here while the “PLUS” light is lit you will collect 2 million points and add another 1 million, and so on.

THE LEFT RAMP
Every time you shoot the ball up the Left ramp and then shoot it again straight afterwards, you will collect 1 million points.
THE MIDDLE PASSAGE AND THE CLEAR RAMP
Shooting the ball through the Middle passage will force it onto the Clear ramp, where the ball can fall down 1 of 2 paths. The 1st path leads into the Vault and the other path leads to the Left flipper. In each case the ball will roll past the “RIP” lights, so use your skill to light them up and enable the Kickback in the Vault. Also, the “PLUS” and the “2X SCREAM” lights will be enabled on the Right passage and the Screams ramp respectively if the ball falls down the Clear ramp and straight out into the table.

THE STONE AND BONE LIGHTS
Light up all the “STONE” and “BONE” lights to enable a Ghost on the Middle passage.

THE WELL BALL-TRAP
If you shoot the ball into the Well you will collect the current Well Treasure bonus. You can also collect a Multi-bonus from here when the “MB” light is flashing.

THE VAULT BALL-TRAP
Once you have enabled a Ghost, shoot the ball into the Vault to collect it. If there are no Ghosts enabled, shooting the ball here will award the current Vault score. If the ball is heading for the Vault from normal play (i.e. not from the Clear ramp) and the “KICK BACK” light is flashing, the ball will enter the Vault, you will collect the bonus and the ball will be shot back into the table. Otherwise, the ball will fall out of play via the left Side-lane.

MULTI-BONUSES
To enable and collect the next Multi-bonus in the sequence, shoot the ball through the Middle passage and then into the Well.
A LOOP COMBINATION
If you shoot the ball through the Middle passage and onto the Clear ramp so that it falls straight out into the table and then shoot the Screams ramp followed by the Left ramp, you will collect 5 million points.

THE TOWER HUNT FEATURE
During the Tower Hunt feature, you can collect multi-million bonuses by shooting the ball up the Tower ramp. The 1st time you shoot the Tower ramp you will collect 5 million points. The 2nd time will award you 10 million points and if you manage to shoot the ball into the Tower a 3rd time, you will collect 20 million points. The Tower Hunt feature is enabled by collecting the Blue Ghost and will last for 30 seconds once it is enabled.

THE GHOST HUNTER FEATURE
During the Ghost Hunter feature, hitting any drop-target, bumper or switch will award 1 million points. The Ghost Hunter feature is enabled by collecting the Yellow Poltergeist and will last for 30 seconds once it is enabled. The Jackpot is also available on the Tower ramp during this 30 second period.

THE MULTI-DEMON FEATURE
The Multi-demon feature is enabled by collecting the Blue Octopussy. When this feature is enabled, shooting the ball into the Vault or the Well will “lock” it in. When the new ball appears in the chute, try to shoot it into a ball-lock as well, as the more balls you have locked away, the higher the multi million bonus will be:

1. Shooting the Screams ramp when you have no balls locked away awards 5 million points.
2. Shooting the Screams ramp when you have 1 ball locked away awards 10 million points.

3. Shooting the Screams ramp when you have 2 balls locked away awards 20 million points.

The Multi-demon feature lasts for 30 seconds once enabled.

THE GRIM REAPER FEATURE
During the Grim Reaper feature, shooting any ball-trap (the Vault or the Well) or ramp will award you with 5 million points.
The Grim Reaper feature is enabled when you collect the Grim Reaper Ghost, and once enabled will last for 30 seconds.
The Jackpot is also available on the Tower ramp during this 30 second period.

THE GHOSTS
Whenever the “STONE” and “BONE” lights are all lit you enable a Ghost. Collecting Ghosts awards bonus points or enables bonus features. Ghosts are enabled and collected in the following order:

1. Bat - awards 5 million points.
2. Blue Ghost - enables the Tower Hunt feature.
3. Green Smiler - enables an Extra Ball on the Tower ramp.
4. Red Devil - awards 10 million points.
5. Yellow Poltergeist - enables the Ghost Hunter feature.
7. Mummy’s Head - awards 15 million points.
8. Grim Reaper - enables the Grim Reaper feature.

Note that a lit Ghost must be collected before another Ghost can be enabled.
THE SUPER JACKPOT FEATURE
If you shoot the ball up the Tower ramp straight after collecting the Jackpot (while the "S-JACKPOT" light is flashing under the Tower ramp) you will collect the Super Jackpot of 50 million points.
